

The Genealogical Society of North Orange County CA  
Is Pleased to Present a One Day Seminar with  
**Nationally Known Speaker, Author,  
and Genealogy Internet Go-to-Guy**  
**THOMAS MacENTEE**  
*Creator of GeneaBloggers*

What happens when a “tech guy” with a love for history gets laid off during The Great Recession of 2008? You get me, Thomas MacEntee, a genealogy professional who’s also a blogger, educator, author, social media connector, marketer, network builder and more. I was laid off after a 25-year career in the information technology field, so I started building my own genealogy-related business called [High Definition Genealogy](#). I also created an online community of over 3,000 family history bloggers known as [GeneaBloggers](#). My most recent endeavor, [Hack Genealogy](#), is an attempt to “re-purpose today’s technology for tomorrow’s genealogy.” I’m a life-long learner and have finally figured out what I do best: teach, inspire, instigate, and serve as a curator and go-to-guy for concept nurturing and inspiration. I believe in success, and that we all succeed when we help each other find success.
